

## Oh, Those Kids! How Supervisors Can Help School Bus Drivers Prevent and Handle Challenging Behaviors *with Polly Bath*

(This workshop assumes that supervisors attended the morning session for bus drivers: "Preventing and Managing Behavior Problems on Your School Bus.")

This practical and lively workshop for supervisors of bus drivers will address:

- Helping bus drivers remember key behavior strategies they learned in the morning training (and expecting them to use them);
- Encouraging bus drivers to use good communication skills with children (no matter how irritating ☺), as well as with parents and educators;
- Coaching a bus driver who has a challenging behavior on their bus.
